

REPORT ON THE AWARENESS PROGRAMME FOR PROMOTING MEDICINAL AND AROMATIC PLANTS UNDER THE AROMA MISSION IN MEG-LIFE VILLAGES

The Institute of Natural Resources, Meghalaya, in collaboration with the District Project Management of Meg-Life, organized an awareness programme. During this initiative, members from the Village Plantation Implementation Committee (VPIC) and Village Community Facilitator (VCF) were identified and engaged.

The primary **aim and objectives** of the programme was to create awareness about medicinal and aromatic plants (MAPs) among the participants and to promote the cultivation of high value crops, their processing, value addition and marketing of essential oil for providing additional income to farming communities and encouraging agri-business for people of the state. Throughout the extended week-long program, a total of 25 sessions were held at the block level, where 1194 participants enthusiastically attended the programme, out of which 887 were males 307 were females. Detailed information regarding each session is provided in the table below.

During the interaction session, participants raised several questions and expressed their doubts. Some of the feedback received includes:

- Inquiry about the required land area to commence plantation.
- Concerns regarding the mission's assistance in marketing their oil.
- Query about individual and group participation in the mission.
- Interest in whether the mission would provide funds for fencing, land development, etc., to facilitate plantation.

- Concerns about the potential impact of grazing on aromatic crops.
- Question regarding the frequency of crop harvesting per year.
- Inquiry about whether the mission would cover labor fees during plantation.
- Interest in whether the department would provide a Field Distillation Unit (FDU) for oil extraction.
- Concerns about potential challenges in marketing.
- Inquiry into how the mission would facilitate marketing.
